

FANUC makes you pay extra for options for their robots. Below is the list of options we have on our specific robot.

CONFIG::

FEATURE:,ORD NO:

FANUC LR HandlingTool,H551

English Dictionary,H521

Ext. DIO Config,EIOC

External DI BWD,ESET

SSPC error text,ETSS

Kernel + Basic S/W,H510

Robot Servo Code,H930

Host Communications,HOCO

TCP/IP Interface,HTCP

Web Server,HTTP

Palletizing,J500

MACROs,Skip/Offset,J503

Program Shift,J505

Mirror Shift,J506

Print Function,J507

Tool Offset,J509

Incr Instruction,J510

Hour Meter,J513

Position Registers,J514

Prog Num Selection,J515

Floppy Connection,J516

TCP Auto Set,J520

KAREL Run-Time Env,J539

Password Protection,J541

Automatic Backup,J545

Control Reliable,J547

Enhanced User Frame,J604

Space Check,J609

Background Editing,J616

High-Speed Skip,J627

Condition Monitor,J628

FTP Interface,J716

IntelligentTP PC I/F,J770

YELLOW BOX,J775

Mode Switch,MDSW

Enhanced Rob Serv Req,ORSR

PC Interface,PCIF

PC Send Macros,SEND

Shift Library,SHLB
Socket Messaging,SKMG
Shift and Mirror Lib,SMLB
HMI Device (SNPX),SNPX
Robot Service Request,SRSR
Telnet Interface,TELN
TMILIB Interface,TMIL
User Frame,UFRM
Web Svr Enhancements,WEBP
LRMate200iB/3L,H767
MH Collision Guard,HSCD
Collision Guard,J633
CRASH BY UNINIT POS R,U004
LR MATE100IB FOR LINE,U008
QUICK SERVO PARAMETER,U009
FIX REDUCE SERVO RESE,U011
